APPLYING LANDSCAPE AND SUSTAINABLE LAND MANAGEMENT (L-SLM)

FOR MITIGATING LAND
DEGRADATION AND
CONTRIBUTING TO
POVERTY REDUCTION
IN RURAL AREAS

GLOBAL ENVIRONMENT FACILITY
INVESTING IN OUR PLANET

ABOUT PROJECT

The project "Applying Landscape and Sustainable Land Management (L-SLM) for mitigating land degradation and contributing to poverty reduction in rural areas" is 3 years project (2016-2019) initiated by the Ministry of Environment and Natural Resources Protection (MOENRP) of Georgia. The project is financed by GEF, implemented through UNEP and the executing by MOENRP through REC Caucasus.

OBJECTIVE OF THE PROJECT

Project Objective is to support integration of good Landscape and Sustainable Land Management (L-SLM) principles and practices into national policy and institutional framework to ensure adoption of economically viable practices by rural communities.

PROJECT CONSISTS OF THREE MAIN COMPONENTS:

- 1 Policy, regulatory and institutional reforms to mainstream L-SLM practices;
- 2 Demonstrating benefits of introducing best L-SLM practices in the production system;
- 3 National capacity development and knowledge Management.

OUTCOME 1

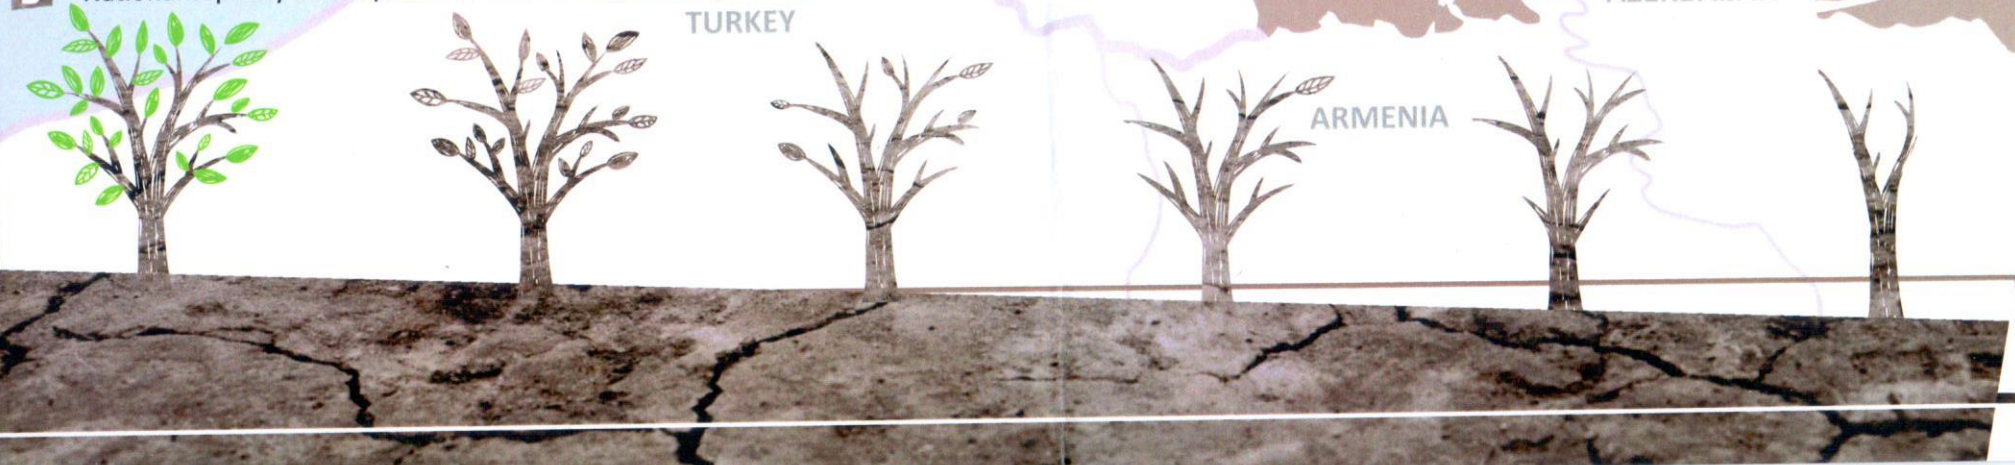

Adequate legal, policy and institutional framework on SLM at national level

OUTCOME 2

Increased understanding of SLM and its contribution to livelihood at local level

OUTCOME 3

Capable national stakeholders to develop and manage SLM issues
